

Netbook Stand

When I bought a little Samsung netbook a few weeks ago, it was a bit uncomfortable to use while sitting at the table. For me, it needed to be slightly slanted. To solve the problem, I made this handy stand.

Photo #2

Materials Needed

Length of 1/2-inch CPVC pipe
6 1/2-inch CPVC ells
2 1/2-inch CPVC caps
CPVC glue

Instructions

Cut the pipe to length. (See photo 3 below.) The lengths can be adjusted to fit any size netbook or laptop.

Glue one section at a time.

That's it. Simple & quick to make, cheap Netbook Stand.
